IN THE MATTER OF THE APPLICATION OF  
THE COMMISSION ON ITS OWN MOTION  
INVESTIGATING THE FAILURE OF CARL  
HARVEY DBA GOLDEN CORRIDOR WATER  
COMPANY TO COMPLY WITH COMMISSION  
RULES AND REGULATIONS.

DOCKET NO. W-02497A-06-0580

**CERTIFICATE OF FILING**

The May 23, 2007 Interim Management Agreement entered into by the Staff and Arizona Water Company (the "Company") per Decision No. 69166 required, among other things, that the Company, as Interim Manager of Golden Corridor Water Company ("GCWC") file Progress Reports after taking over the operation, maintenance, and management of GCWC's water system. In response, the Company now files its ninth Progress Report, which is attached hereto as Attachment A.

## ATTACHMENT A

### Interim Manager Progress Report Concerning Operation of Golden Corridor Water Company

#### Operations and Environmental Compliance

Arizona Water Company ("the Company") is currently billing 58 Golden Corridor Water Company customers pursuant to Golden Corridor's approved tariff. There are currently no formal customer complaints on file with the Arizona Corporation Commission.

No further sampling for nitrate is needed as Golden Corridor Water Company customers are served water produced by the Company's Pinal Valley system.

Water delivered to Golden Corridor Water Company is being chlorinated with an average of 0.94 mg/L per month. Chlorination results in better protection against bacteria and protection of public health. The Company takes two chlorine residual samples monthly at the same locations in the distribution system as the bacteriological samples. The distribution system samples show no indication of bacteria.

The Company filed a Disinfectants and Disinfection Byproduct Plan for Stage 1 and Stage 2 with ADEQ in August 2008. As noted, Golden Corridor's water is being chlorinated and sampling for TTHM/HAA5s began in August 2008. Two samples were taken annually and all of the results have been below the maximum contaminant level, therefore, ADEQ reduced the monitoring to once every three (3) years. The next sample is scheduled to be taken in 2012.

Lead and Copper samples were taken in June 2011 and all of the test results were below the action level. The next sample period for Lead and Copper testing is June 2014. All water delivered to Golden Corridor customers complies with safe drinking water standards. Consumer Confidence Reports were delivered to each Golden Corridor customer in June 2011.

Golden Corridor Water Company
